KART1 DISTRIBUTION HISTORY ABOUT THE COMPANY

Kart 1 is the exclusive worldwide distributor of OTL electric go-karts, the most popular electric concession kart in the United States. We specialize in providing the majority of the products needed for a modern concession karting facility. In addition to the karts, we also distribute **PROTEX** karting barriers, chargers, **SAKAMOTO** tires, timing systems, helmets, flags, trophies, medals and more.

Kart 1 was founded in 2002 and over the last 18 years has distributed OTL karts to over 175 plus karting centers worldwide. Some of our largest customers include K1 Speed, Autobahn Indoor Speedway, MB2 Raceway, RPM Raceway, Pole Position Raceway, Veloce Indoor Speedway, and many more. Many of our customers have opened multiple locations, for example, K1 Speed has 43 locations, Autobahn has 12 locations and MB2 has 6 locations. Our customers are using OTL karts in over 24 countries including the United States, Canada, Mexico, Australia, New Zealand, China, Russia, Korea, Italy, France, UK, Finland, Netherlands and many more.

We believe in creating long-term partnerships with our customers so that we continue to support you long after the first purchase of karts. After the initial purchase, we will travel to your location and assist with the setup of the karts and the installation of the Protex barriers. We have large warehouses around the world where we keep stock of all the spare parts and accessories you need. Thanks to our large inventory we always ship orders the very same day. We also have expert technicians who are always available by phone or email to support you with any issues or questions that may arise. We hope that we will have the opportunity to serve and support your karting center!

KART MODELS STORM EFD

The OTL Storm EFD kart is the undisputed industry leader of electric go karts for rental fleets. OTL has been manufacturing exclusively electric karts since 1996, as a result after year of in the file use, the kart has been thoroughly tested, revised and reworked to create the perfect heavy duty rental kart. OTL electric karts are currently in use at over 85 track in the United States, and 175 tracks worldwide. Some of our most notable customers include K1 Speed, Pole Position Raceway, Autobahn Indoor Speedway, MB2 Raceway and many more.

OTL KARTS IS THE WORLD LEADER AND INNOVATOR OF ELECTRIC KARTS SINCE 1996.

Founded in Italy in 1996, OTL has been manufacturing only 100% electric karts for over 20 years. Each kart is carefully designed, engineered and manufactured with the latest technologies for the rental and racing business, available either with lead or lithium batteries.

KART MODELS

OTL JUNIOR

The OTL Junior Kart is the perfect complement to the Adult Storm Kart. The junior kart allows you to appeal to a much larger market. In fact, for many customers it accounts for around 30% of their business which is why almost all of our customers have Adult Karts and Junior Karts. Now you can appeal to kids birthday parties, junior racing leagues and be a one-stop-shop for the entire family.

As with the adult kart, safety is critical and thus it has many of the same safety features. The minimum height recommendation is 48" which typically corresponds to children aged 7 to 8. Many of the kids use the Junior Kart as a stepping stone the Adult Storm Kart creating long lasting customers.

KART MODELS

STORM DUO

With the all new OTL Storm DUO kart, you can create even more excitement at your track. Parents can drive with their kids, instructors can teach students, or you can just have fun with the new dual experience.

Perfect for family experiences, training academies, team building and more, this unique kart adds a whole new dimension to your track.

KART MODELS OTL EGK KART

The new OTL EGK is perfect for family fun centers and multi-activity centers. This kart accommodates teenagers and adults 58" or taller. The best part is that it's priced to be our most affordable option. It still offers excellent performance with a 40 mph top speed and very low maintenance. All of the safety options are included such as the roll bar, seat belt, steel tube feet protection, emergency stop button, reverse function and the ability to wirelessly control the speed of the karts.

KART1 PRODUCTS DESIGN & ENGINEERING

OTL Karts stay true to the hand built Italian quality we all know in their world famous products. The team of artisanal engineers and craftsmen, ensure the quality, durability, and world class aesthetics in the full range of products.

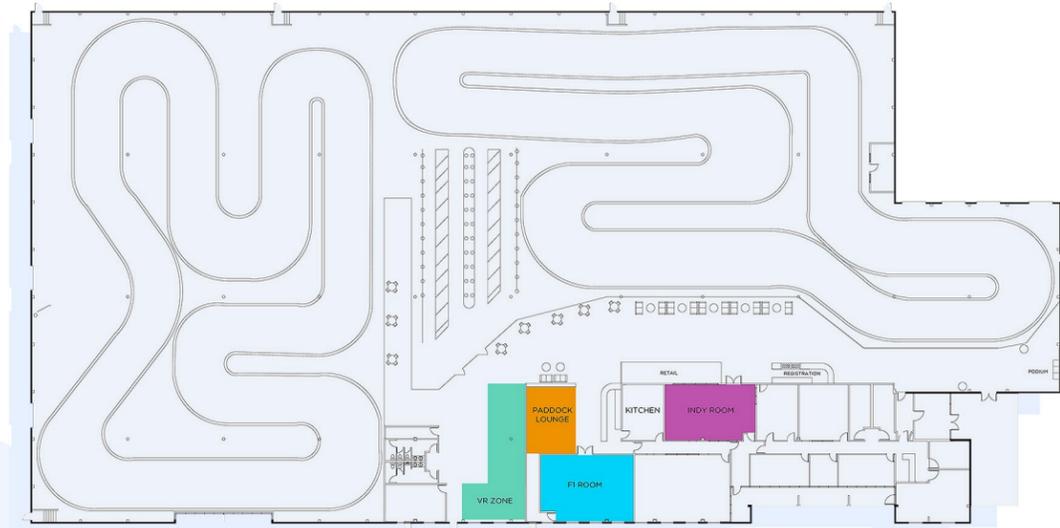

DRAWING & PLANNING CONCEPT DESIGN

Starting the journey to opening a karting facility can be an overwhelming process, but Kart1 is here to make it a breeze.

With our experience in opening hundreds of karting facilities, we can assist you in the journey from concept to creation! Not only do we offer a full line of products, we also treat your project as our own, helping in any aspect we can.

From 20,000 sqft to 200,000sqft, single level to multi-level, we can make your dream into a reality!

KARTING DISTRIBUTION
BARRIERS

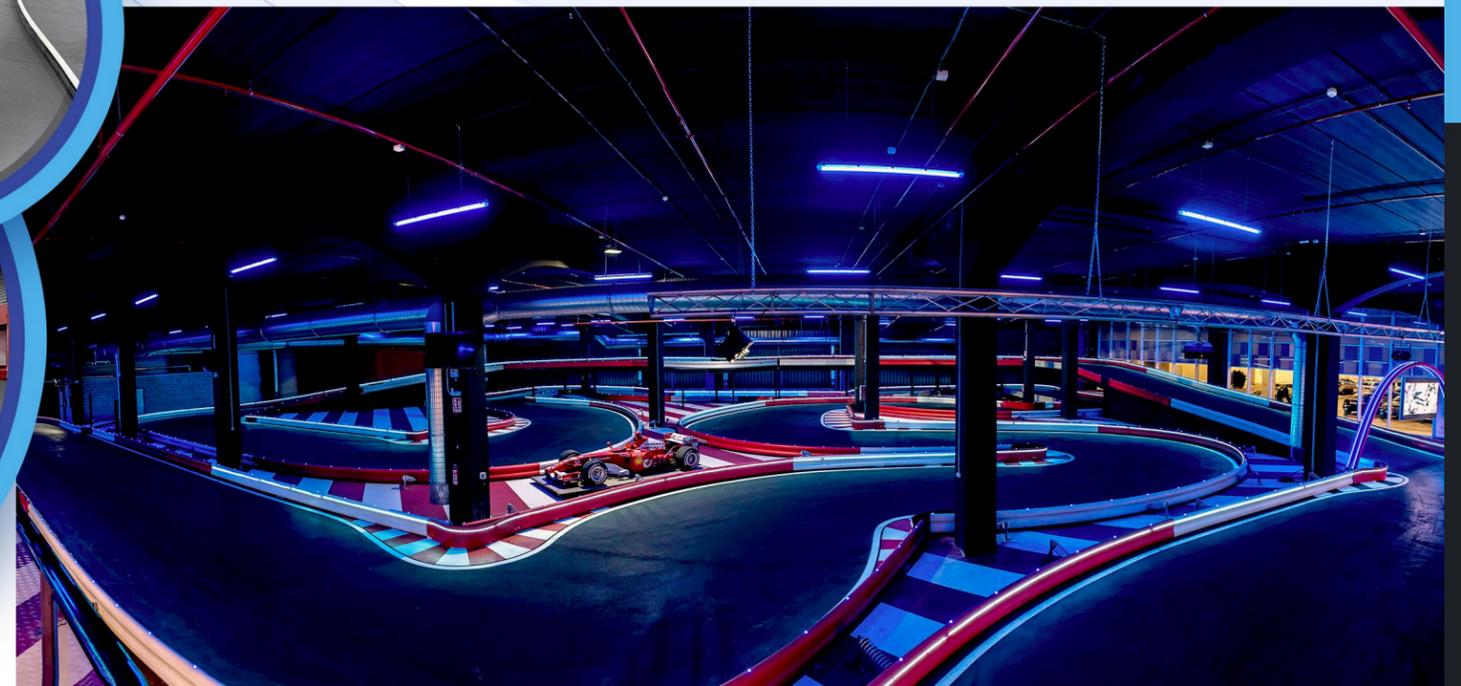

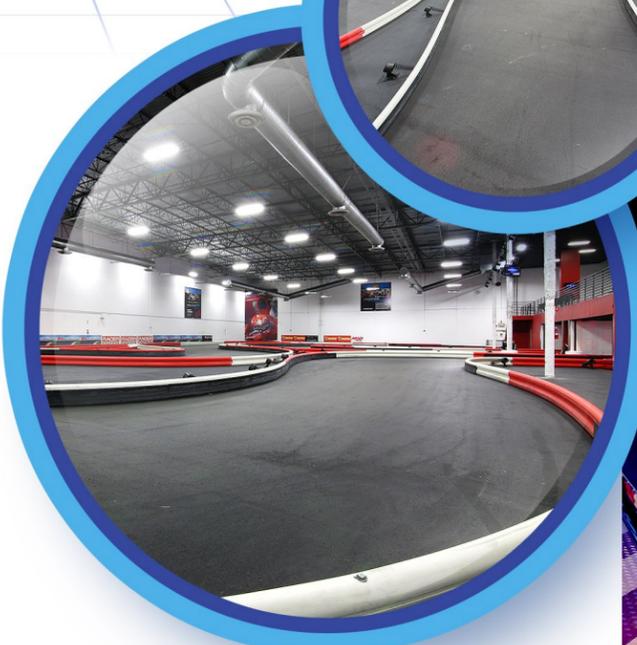

HIGHEST QUALITY KARTING BARRIERS
TRACK DESIGN & PROTECTIVE BARRIERS

A **PROTEX KARTING** barrier has no sharp edges and is made of high-density polyethylene making it very flexible and elastic, while at the same time impact resistant and almost unbreakable. The barrier adopts an eight-shaped cross-section, being possible to manufacture it in different lengths, sizes, and colors. The result obtained after the barriers have been installed is a continuous and flexible protection against impacts.

COMPUTATION AND EXECUTION
PLANNING & ENGINEERING

Our Protex team members use CAD software to help visualize your dream. We can render in your colors, providing you with images of what your track will look like when completed. This also allows us to cost out your build with precision.

KARTING DISTRIBUTION ELEVATION TRACKS

MULTI-LEVEL ELEVATION BARRIERS

Protex has installed dozens of multi-level tracks around the globe. Our proprietary engineered ramp and surface modules make it easy to design and install to get you up and running as quickly as possible.

PROTEX KARTING BARRIER

SPECIFICA
1. MINIM
2. RECO
3. MINIM

DURABILITY TO RESIST ELEMENTS INDOOR & OUTDOOR

Our barriers are manufactured to withstand the elements, with some outdoor installs approaching 20 years! Our patented design and polymer construction is virtually unbreakable and will provide you with years of service.

MOOD LIGHTING LED LIGHTS

Protex barriers have the option for LED light installs. Allowing for highlighted vision for racers or for mood lighting for the track area.

CAD VISUALIZATION TRACK DESIGN

Each project is assigned individually to an engineer and designer who customize each layout and design to best fit the facility and offer the highest level of racing experience.

KART1 DISTRIBUTION
TIRES

SAKAMOTO TIRES HIGH PERFORMANCE TIRES COMMITMENT TO QUALITY AND RELIABILITY

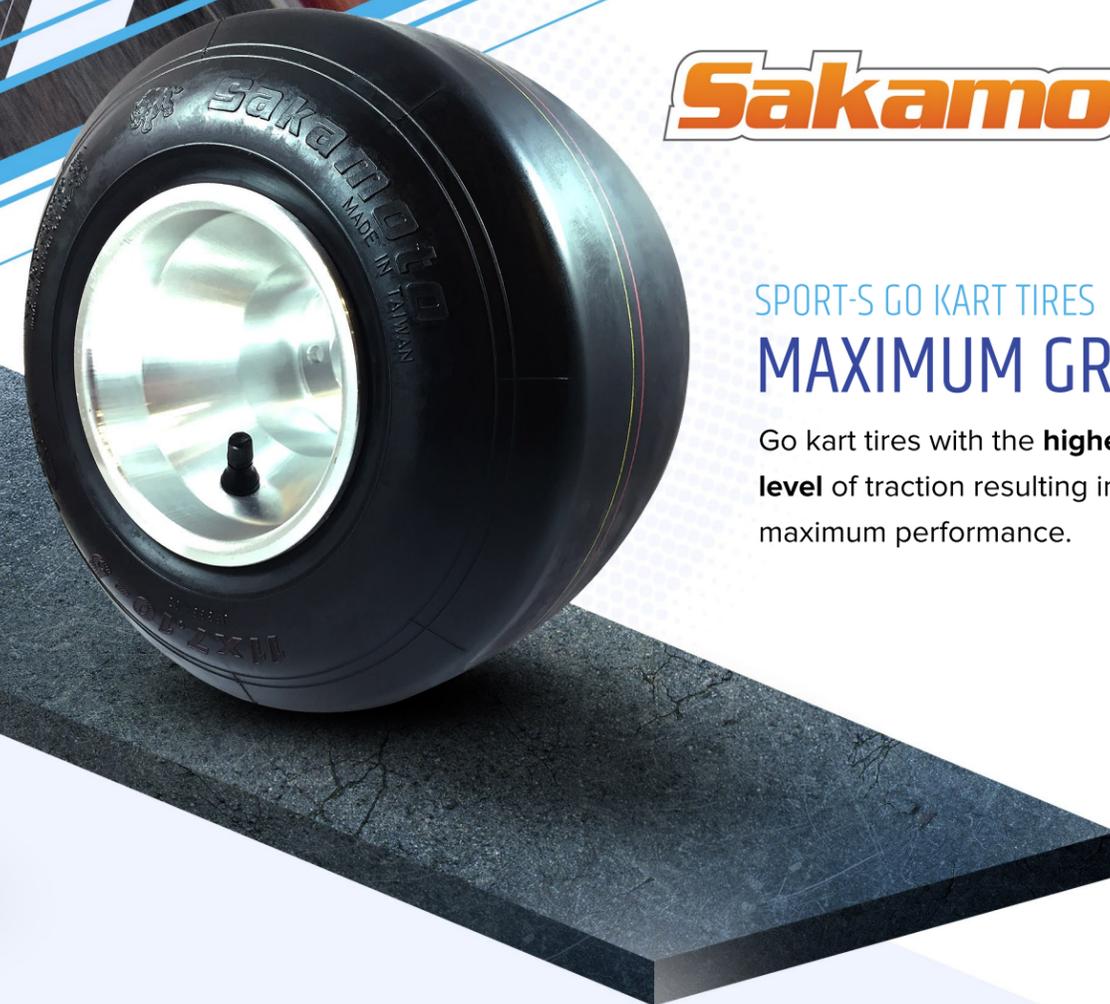

Developed in 2010 by ex-professional kart racers, Sakamoto tires has become the reference in the karting industry.

Our tires have been in use by many tracks for over 10 years. During this time we have listened to the feedback from our customers in order to improve and refine the product. Our tires are designed to be high performance, cost-effective and have a long lifespan allowing you to have the best lap.
